

ESPERANCE GAS DISTRIBUTION SYSTEM

NOTICE TO GAS FITTERS

CONVERSION OF LPG DOMESTIC APPLIANCES TO NG

After the Gas Inspectors' Conference in Perth with DOCEP's Energy Safety Division on the 8th June 2005, written approval was obtained for Type A gas inspector Mr Darren Strachan to approve all appliance conversions in Esperance.

For information, the necessary conversion kits are available from Perth supplier, Dalefield Domestic Gas Services. Please contact Mr Doug McKay on Mobile 0418 910 385 or Fax 9314 5266 for more information. The kits have been used successfully for converting water heaters and cookers at the Alinta's Vines gas distribution network.
